## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's arguments filed 11/30/2006 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the rejection made by Examiner in the last office action and for the following reasons:

### ***Claim Rejections - 35 USC § 112***

Claims 1 and 2 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. While the specification provides support for the step of crosslinking the bonding residues by using a molecular structure having a higher atomic density in the periphery than in the interior and having bonding residues in the periphery, as disclosed at page 3 in the specification, it does not provide support for the use of "intra-molecule bonding", as now amended, since it does not determine how it works.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by JP-2000-063513 or EP 899286 or Jensen et al or Cooper et al.

The rejection is maintained for the reasons as stated above and for the reasons as stated in the last office action.

Art Unit: 1711

Claims 7-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
